

### TECHNICAL DESCRIPTION:

MODEL	BEARINGS (incl. IAR)	WEIGHT oz	LINE CAPACITY (lbs / yds)	LINE RECOVERY (inches)	GEAR RATIO	MAX DRAG (lb)
757CS/757CT/757CTM	3	19	20 / 320	30"	4.3:1	20 +

### COMPETITIVE ADVANTAGE:

- Carbon Multi Disc Drag System for Optimal Drag Performance
- Brass Anti-Corrosion Chromed Side Plates
- 2 Stainless Bearings in the Spool
- Machined Brass Gears
- Synchronised Level-Wind (CS Model)
- Stainless Steel Power Handle
- Corrosion Resistant Instant
- Anti-Reverse Bearing
- Line Out Alarm
- High Torque Winding Power
- Mag/Centrifugal Brake System
- Open Top CT frame (On CT Models)
- Dual Anti Reverse Feature

The ultimate big water casting reel. Proven durability corrosion resistant bearings and Multi Disc Carbon Drag System. CS or CT frames, Centrifugal and Magnetic casting brakes.
