

TECHNICAL DESCRIPTION:

MODEL	BEARINGS (incl. IAR)	WEIGHT oz	LINE CAPACITY (lbs / yds)	LINE RECOVERY (inches)	GEAR RATIO	MAX DRAG (lb)
656CS/656CSM/656CTM	3	16.5	15 / 300	23"	5.3:1	17.5

COMPETITIVE ADVANTAGE:

- Carbon Multi Disc Drag System for Optimal Drag Performance
- Brass Anti-Corrosion Chromed Side Plates
- 2 Stainless Bearings in the Spool
- Machined Brass Gears
- Synchronised Level-Wind (CS Model)
- Stainless Steel Power Handle
- Corrosion Resistant IAR Bearing
- Line Out Alarm
- High Torque Winding Power
- Mag/Centrifugal Brake System
- Open top CT frame

The ultimate shore casting reel. Proven durability corrosion resistant bearings and Multi Disc Carbon Drag System. CS or CT frames, Centrifugal and Magnetic casting brakes.
