

## **TECHNICAL DESCRIPTION:**

MODEL	BEARINGS	WEIGHT	LINE	LINE	GEAR	MAX
	(incl. IAR)	oz	CAPACITY	RECOVERY	RATIO	DRAG
			(lbs / yds)	(inches)		(lb)
757SCM/757 LSi	3	19	20 / 320	40.5"	5.8:1	20 +
Vittesse						

## **COMPETITIVE ADVANTAGE:**

- Carbon Multi Disc Drag System for Optimal Drag
- Brass Anti-Corrosion Chromed Side Plates
- 2 Stainless Bearings
- High Speed Retrieve 5.8:1
- CNC Extruded Frame with Stainless Reel Foot
- Synchronised Level-Wind (LSi Model)
- Anodised Power Handle with EVA Scff Calo
- Instant Anti-Reverse Bearing
- Line Out Alarm
- High Torque Winding Power
- Mag/Centrifugal Brake System
- Dual Anti Reverse Feature
- Machined Brass Gears

The New AKIOS Vittesse reels have the ultimate one piece cage for strength, chromed brass side plates for anti-corrosion and has Hi-Speed retrieve of 5.8:1. The ultimate big water casting reel. Proven durability with corrosion resistant bearings and Multi Disc Carbon Drag System. The LSi is the level-wind version and the SCM is the open cage model
